

# Industrial Refuellers

FUELCO offer the worlds widest range of professionally engineered, industrial fuel transfer solutions. The systems have been used within the construction and mining Industries, for decades. Designed to enable fast and clean fuelling, to maximise your equipment uptime.

Matched with a fuel management solution, FUELCO can offer you a fully secure system where all transactions are recorded for later analysis.

Having been in the industry for well over 30 years, FUELCO have developed these market leading solutions from experience based in real world applications.

Making use of only the best market leading components, factory assembled, packaged and tested at our facilities, ensures that you receive the most reliable and heavy duty solutions available globally .

**FUELCO, an ISO 9001 Certified Company**

Heavy duty systems, using the worlds leading OEM components

Designed specifically to keep large mine sites and quarries operating

Modular, double wall compliant solution designed to allow simple relocation around the facility

Fitted with custody transfer flow meters, ensuring that every drop of fuel is accurately measured

Designed to be tank or skid mounted

**Fuelco**<sup>TM</sup>  
complete fuel storage solutions

## Specifications

Model	PP-IND-REF-150	PP-IND-REF-200	PP-IND-REF-250	PP-IND-REF-225-PD	PP-IND-REF-370-PD	PP-IND-REF-500-PD	PP-IND-REF-850-PD
Flow rate (l/min)	150	200	250	225	370	500	850
Pump	STP			Vane			
Configuration	Duty or Duty/Standby						
Hose	6m, 8m or 10m on hose mast					Loading Arm	
Power	230/400/460V - 50Hz/60Hz				400/460V - 50/60Hz		
Filter - Stage 1	Optional - 4, 7 or 25µ Particulate					4, 8 or 12µ Particulate	
Filter - Stage 2	Optional - Water Absorber / Coalescer						
Flow Meters	Custody Certified Meter with Mechanical Register Air eliminator and strainer (Optional Electronic registration, 2 stage preset)						
Nozzles	1 1/2" Automatic Shut-Off Bulk Fuelling Nozzle					Banlaw or Wiggins Fast Fill Nozzle	
Optional LV or MV Nozzle	80 l/min LV Nozzle			80 l/min LV Nozzle		80 or 250 l/min LV or MV Nozzle	
Optional	Optional - Water detection, High Pressure, Differential Pressure, Leak Detection, Pulse Output, Fuel Management						
Standard fittings	Isolation Valves, WIKA Pressure Gauges, Inline Strainer						
Design	Pump Bay or Skid Based Design						

\*\* Project Specific Solutions are available upon request.
